

I can't believe how well our daughter took to swimming at Kids First. She's pretty shy in new situations, but walked right into the pool and got right into it the first day. She loves it! We do too, because we know she is more comfortable and can get more out of a pool that is actually sized for kids. And the small classes are key with our daughter too. I recommend it to everyone. Kids First was actually recommended to us by two families from your Cockeysville location.

In fact, we are moving this summer and one of our requirements is to stay close to the Finksburg school. I look forward to more information on Frederick when it is available. Thanks for keeping me informed.
